

# EVGA NU AUDIO Pro

## PCIe Audio Card

## INTRODUCTION

**PART NO: 712-P1-AN11-KR**

Introducing the EVGA NU Audio Pro Card. The pursuit of audio perfection on a PC takes another step forward with EVGA and Audio Note (UK). The stereo-based card (+ 5.1 optical out) is upgraded from the original NU Audio Card with improved component selection and a mini-DisplayPort connector to connect to the NU Audio Pro Surround\* card. The NU Audio Pro Software gives users complete control over their audio setup, complete with nahimic 3D Audio for Gamers and full control over the multi-zone RGB lighting. Featuring Audio Note's exclusive SEIRYU audio capacitors, a premium combination headphone pre-/power amp, and a carefully crafted cover and backplate to block EMS, the NU Audio Pro is carefully crafted with a more refined look and audio signature than its predecessor to bring you the Next Level Of Lifelike Audio.

\*Optional. Must be purchased separately.

**Audio DSP:**  
XMOS xCORE-200

**Output Configuration:**  
2 Channel (Analog)  
5.1 Channel (Optical)

**Dynamic Range (DNR) /**  
123dB (Playback)  
121dB (Recording)

**Playback Format:**  
Up to 384kHz, 32bit (Stereo)  
Up to 192kHz, 24 Bit (Optical)

**Headphone Amp:**  
16-600ohm

**Recording Format:**  
Up to 384kHz, 32bit (Line-In)  
Up to 192kHz, 24bit (Mic-In)

**Power Connector:**  
1x SATA Power

**I/O:**  
Stereo Out (RCA L/R)  
Headphone Out (6.3mm)  
Line-In (3.5mm)  
Mic-In (3.5mm)  
Optical Out (TOSLINK Passthrough)

**Premium Components:**

DAC - AKM AK4493  
ADC (Line-In) - AKM AK5572  
ADC (Mic-In) - Cirrus Logic CS5346  
OP-AMP (Headphone) - ADI LT1469  
OP-AMP (Line Out) - ADI AD8056

**Capacitors -**

Audio Note SEIRYU,  
Audio Note Standard,  
Nichicon, AVX F95 Audio,  
WIMA, Panasonic PPS

**Switchable OP-AMPS:**  
Headphone, Line Out

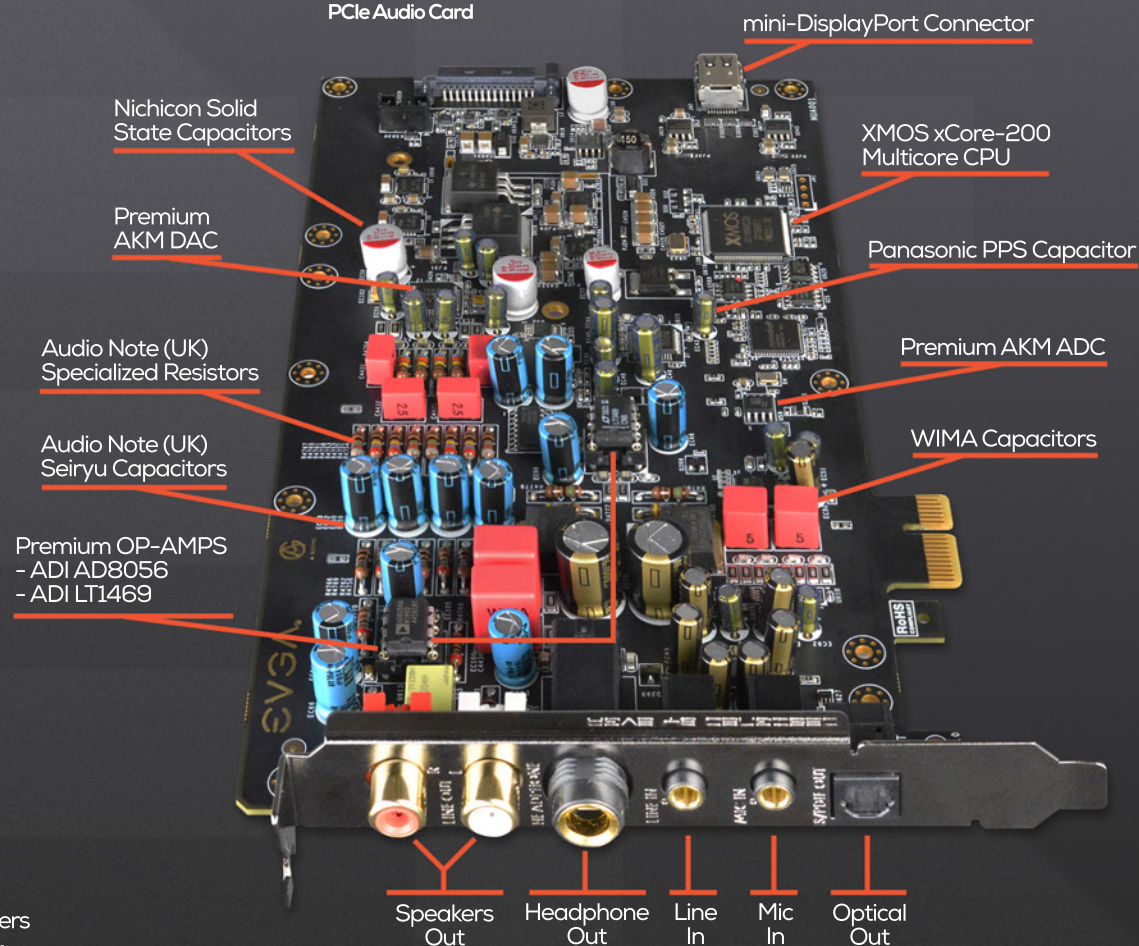

**Interface:**  
PCIe x1 Gen2  
mDP

**RGB Lighting:**  
10 - Mode Multi-Zone Audio  
Reactive Lighting

**Supported OS:**  
Windows 10 (64-bit)

# FEATURES

PART NO: 712-P1-AN11-KR

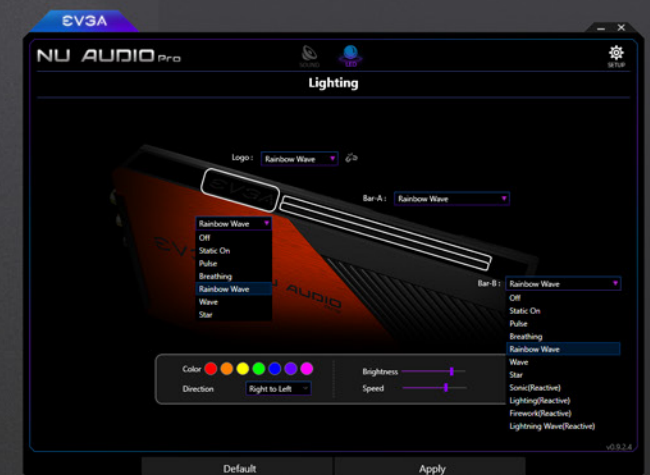

# NU AUDIO Pro

PCIe Audio Card

The EVGA NU Audio Pro features a robust software suite of features for audiophiles, gamers, streamers, and anyone else looking for the best sound quality from an audio card. The NU Audio Card Pro comes packed with Virtual Surround from Nahimic, reverb effects for playback, smart volume control for playback and recording, and ambient noise reduction during recording. These features can be individually toggled on/off, or all processing can be disabled with the click of a button.

EQ is now easier than ever for those who do not want to configure a 10-band equalizer. With our Quick EQ, simply move the sliders to adjust bass, vocals, and treble without much effort. The 10-band equalizer is still available for more advanced users, along with the ability to create multiple profiles for different configurations.

Configure the 10-Mode Multi-zone RGB lighting to personalize your audio experience.
